Thoughts AND Action

"Thoughts and Action" . . . The record that stimulates desire, yet satisfies hidden passion. Feel its love, experience its message. While attaining new heights of freedom, it conveys its message completely, leaving you with the ultimate climax. A record so compelling and real that your body will vibrate to its rhythm. A deep expression of love, desire and satisfaction so up front that it is only legal during this time of relaxed censorship. Is it pornographic? Let your deepest desires decide. "Thoughts and Action" has been carefully produced to convey ecstasy to you, ecstasy attained only by satisfaction in love. It is for those who want free, uninhibited and sincere love . . . It is NOT for those of doubt or pretense.

"Thoughts and Action" is a must for any erotic collection, a true collector's item.

Head AND Tail

Let yourself explore the true sounds and words of love. Open your body to the vibrations of passion. Let yourself reach out and touch with communication. All with "Head and Tail" a record that tells the story of Gay Love from both ends.

This is the recording that is making sexual history . . . a truly adult sound that goes all the way, in rich and total detail. So honest and real is "Head and Tail" that it leaves nothing to the imagination, but it will leave you satisfied.

Now, by yourself or with a close friend, you can experience the ultimate in sensation. More than just sound from a stereo, you will feel the passion and need that can only come from LOVE.

If you are aware of your feelings, please do not buy "Head and Tail" . . . It is only for those who know what they like and want. If you do,
